Network Systems graduate transitioning into Data Analytics, seeking an internship opportunity to gain practical industry experience and further develop technical expertise. Passionate about applying analytical thinking and data-driven approaches to support organisational decision-making, improve operational efficiency, and solve real-world business problems while learning from experienced industry professionals.

EXPERIENCE

Data Analysis Program
Capaciti

Dec 2024 – Feb
2026

- Analysed company sales data using Excel and Python to identify top-performing regions and salespersons, contributing to improved sales performance strategies.
- Utilised SQL and Python to explore healthcare datasets, creating visualisations that support data-driven improvements in patient care and hospital operations.
- Developed Excel-based dashboards featuring pivot tables and slicers to evaluate monthly product trends and facilitate performance-based bonus recommendations.
- Employed Python for revenue and customer insight analysis, identifying key revenue drivers and city-level performance trends through heat maps and charts.

EDUCATION

Diploma in Network Systems
Boston City Collage

Mar 2021 - Dec 2023

ACHIEVEMENTS

- Microsoft Azure: Data Fundamentals
- ALX (Data Analytics Program)
- Microsoft Azure- 900

SKILLS

Technical Skills:

- **Programming & Analysis:** Python, R,
- **Data Manipulation & Cleaning:** Pandas, NumPy
- **Data Visualization:** Matplotlib, Seaborn, Excel charts, Pivot Tables
- **Tools & Environments:** RStudio, Jupyter Notebook, Excel

Soft Skills:

- Analytical thinking
- Problem-solving
- Communication skills
- Attention to detail
- Team collaboration
- Time Management
